

Case study submitted by: Kate Slattery, Stoma Nurse Advisor,
TG Eakin Ltd., Ireland

4 reasons to use:

1. Skinsmart hydrocolloid leaves skin in excellent condition^{1,2}
2. Flexible fluted baseplate moulds to his body shape and is ideal for an active lifestyle^{1,2}
3. Easy to see stoma when changing the pouch and applying baseplate^{1,2}
4. Increased security, comfort and confidence^{1,2}

Patient History:

- 42-year-old gentleman. 3 young children
- Very active lifestyle and profession
- Jan 2019: Emergency total colectomy with end ileostomy formation due to Ulcerative Colitis
- Discharged on a 1-piece flat drainable pouch

Problems:

- Complex recovery following emergency surgery
- 3 weeks hospital stay required following surgery
- Experienced leaks with 1-piece flat drainable
- Small parastomal hernia

Success with eakin dot® 2-piece flat:

- Tried an eakin dot® 2-piece flat with an eakin Cohesive® seal
- Fluted baseplate moulds to his body shape and hernia
- Baseplate feels secure and suits his active lifestyle
- Easy to manage stoma routine: Can visualize the stoma when applying baseplate, attaching the pouch and when changing
- Peristomal skin in excellent condition

Using eakin Cohesive® seals

Using eakin dot® 2-piece flat

Clinical evidence for choosing eakin dot® 2-piece soft convex:

- *skinsmart*™ hydrocolloid for longer-life wear is clinically proven to offer greater security, pouch wear time and skin-friendliness compared to other market leading pouches¹
- Purple pop-up on baseplate, audible CLICK and "peel-down" to remove make pouch changes easier¹
